

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

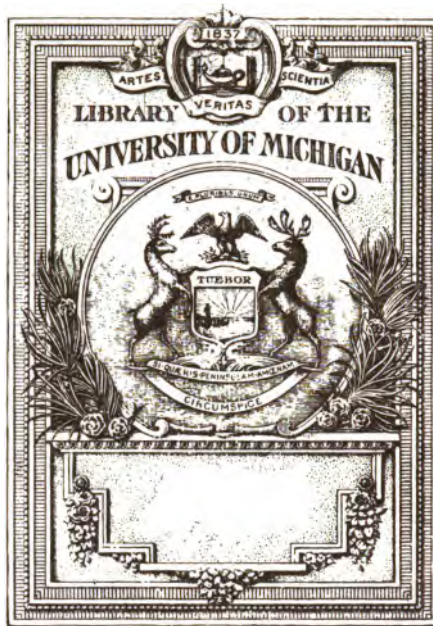

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

LETTER OF TRANSMITTAL

OFFICE OF FACTORY INSPECTORS.

PROVIDENCE, R. I., January, 1921.

To the Honorable General Assembly of the State of Rhode Island:

In accordance with the provisions of Chapter 78 of the General Laws, I have the honor to submit to you this, the twenty-seventh annual report of the Factory Inspectors of this State, covering the inspection of factories, work-shops, mercantile establishments, bake-shops, ice cream and confectionery manufactories, etc., during the year ending December 31, 1920.

Respectfully submitted,

J. ELLERY HUDSON.

Chief Factory Inspector.

REPORT

The Chief Factory Inspector respectfully presents the following as the twenty-seventh annual report of the department:

There have been seven thousand four hundred and twenty-five (7,425) places inspected during the past year, divided as follows:

Bake-shops, stores, etc., employing less than five persons. . . .	4,510
Establishments employing five or more persons.	2,915

Total number of establishments.	7,425
---	-------

This is an increase of one hundred and eighty-one (181) in the number of places employing less than five persons, and an increase of eighty-six (86) in the number of places employing more than five persons.

The number of employees in the various establishments was divided as follows:

Males of sixteen years and over.	124,525
Females of sixteen years and over.	64,437

Total adults.	188,962
-----------------------	---------

Males under sixteen years of age.	3,630
Females under sixteen years of age.	3,613

Total number of children.	7,243
-----------------------------------	-------

Whole number employed.	196,205
--------------------------------	---------

The foregoing figures show an increase of four thousand four hundred and twenty-one (4,421) in the number of men employed; an increase of four hundred and six (406) in the number of women employed; a total increase of four thousand eight hundred and twenty-seven (4,827) in the number of adults employed; a decrease of seventeen (17) in the number of boys employed; a decrease of

three hundred and thirty-five (335) in the number of girls employed; a total decrease of three hundred and fifty-two (352) in the number of those under sixteen years of age employed; a net increase of four thousand four hundred and seventy-five (4,475) in the total number employed. The percentage of child labor is 3.69. For the year 1919 it was 3.96.

The number of employees in the jewelry and silverware manufactories was divided as follows:

Males of sixteen years and over	8,248
Females of sixteen years and over	5,202

Total adults	13,450
------------------------	--------

Males under sixteen years of age	319
Females under sixteen years of age	283

Total children	602
--------------------------	-----

Whole number of employees	14,052
-------------------------------------	--------

The number of employees in bake-shops, ice cream and confectionery manufactories, stores, etc., employing less than five persons was divided as follows:

Males of sixteen years and over	5,764
Females of sixteen years and over	2,167

Total adults	7,931
------------------------	-------

Males under sixteen years of age	128
Females under sixteen years of age	2

Total children	130
--------------------------	-----

Whole number of employees	8,061
-------------------------------------	-------

The number of employees in the textile industries was divided as follows:

Males of sixteen years and over	43,384
Females of sixteen years and over	35,044

Total adults	78,428
------------------------	--------

Males under sixteen years of age.....	2,242
Females under sixteen years of age.....	2,534
<hr/>	
Total children.....	4,776
Whole number employed in textile industries.....	83,204

The foregoing figures show that there has been an increase of two thousand nine hundred and eight (2,908) in the number of men employed; an increase of seven hundred and sixty-six (766) in the number of women employed; a total increase of three thousand six hundred and seventy-four (3,674) in the number of adults employed; an increase of fifty-seven (57) in the number of boys employed; a decrease of two hundred and ninety-two (292) in the number of girls employed; a net decrease of two hundred and thirty-five (235) in the number of those under sixteen years of age employed; an increase of three thousand four hundred and thirty-nine (3,439) in the whole number employed in the textile industries. The percentage of child labor in these industries is 5.74. In 1919 it was 6.28.

The following table shows the number of men, women, boys and girls employed in the State, and also the percentage of child labor by counties, cities and towns:

1915.....	7,028	158,030	5,164	163,194	3.16
1916.....	7,027	175,974	6,839	182,793	3.74
1917.....	7,078	179,912	7,247	187,165	3.87
1918.....	6,782	178,946	8,313	187,259	4.44
1919.....	7,158	184,135	7,595	191,730	3.96
1920.....	7,425	188,962	7,243	196,205	3.69

BAKE-SHOPS, ICE CREAM AND CONFECTIONERY MANUFACTORIES.

There are in force at the present time three hundred and fifty-four (354) bake-shop certificates, an increase of thirteen (13) over the number reported last year. The number of ice cream certificates in force is one hundred and forty-three (143), the same as last year. Certificates for the manufacture of confectionery number seventy-three (73), an increase of two. The combined number of certificates in force is five hundred and seventy (570), an increase of fifteen.

RECOMMENDATION.

Again I renew the recommendation that immediate attention be given to the question of providing adequate means of egress from factories and work-shops in case of fire. The thousands of wage-earners in the State are practically powerless to exercise their own volition as to the character, regarding safety, of the building in which they shall pursue their labors. It is the plain duty of the State to see to it that the lives of these toilers are protected in every possible way against danger by fire. The use of the best means that engineering knowledge and skill have devised should be demanded. This has not as yet been done. The present system of outside fire escapes is inadequate, and, under conditions which, in winter, often exist, would prove a menace. The present practice of opening the stairways directly into the factory unavoidably results, in case of fire, in filling the stairways with smoke. What safety is there even in fire-proof stairways under such conditions? The so-called "Philadelphia Tower Fire Escape" obviates this danger in that it does not open directly into the building. You go out of the building onto a balcony open to the air, or into an open vestibule and thence into a fire-proof stairway which is free from smoke or fire. This arrangement therefore provides places of safety on every floor of a building, and is considered to be, by all practical engineers, the best fire escape known.

PROSECUTIONS.

There have been twenty-seven prosecutions for violation of the law before the district courts of the State during the past year. Twenty-six for employing children under sixteen years of age without having on file in the office of the employer the age and employment certificate required by law, and one for employing a child under sixteen years of age after 8 o'clock p. m. All were sustained and resulted in fines amounting to \$450.00.

ACCIDENTS.

Eight hundred and twenty-three (823) accidents, caused by machinery, seven resulting fatally, were reported from various establishments in the State during the year. They are classified as follows: cut, bruised or jammed fingers, 497; cut or bruised leg, arm, hand or foot, 120; loss of eye, 1; loss of fingers or parts of fingers, 78; loss of arm, 2; loss of toe, 1; fractured leg, 8; fractured arm, 2; fractured fingers, 45; fractured ribs, 5; fractured foot, 2; torn scalp, 2; dislocated shoulder, 1; miscellaneous injuries to other parts of the body, 59.

The fatal accidents are as follows:

January 2, 1920. Carl Neumann, aged 22 years, employed by Cranston Worsted Mills, Bristol. Was removing waste from carding machine, when hand was caught and drawn in and came in contact with the cylinder and was severely crushed and mangled. He died January 16.

February 10, 1920. Joseph Bruneau, aged 25 years employed by Lafayette Worsted Co., Woonsocket. While performing his duties he was struck by pieces of broken machine caused by explosion of the lick-in on carding machine. He died ten minutes after his arrival at the hospital.

May 25, 1920. Patrick Brady, aged 65 years, employed at National and Providence Worsted Mills, Providence. He got caught in elevator and his legs were bruised badly, resulting fatally.

July 12, 1920. William Laroque, aged 65 years, employed by Jenckes Spinning Co., at their plant 27 Foundry Street, Central Falls. Put larger box on elevator than would clear floor above and it forced him over so that he was caught between elevator and floor. He received internal injuries which resulted in death.

July 21, 1920. Matthew Raney, aged 61 years, employed at Langford Worsted Mills, Providence. Stepped off elevator car without properly stopping it, and then stepped backwards on the car which was descending. His knee was fractured and he died in Rhode Island Hospital December 8, after undergoing several operations.

Respectfully submitted,

J. ELLERY HUDSON.
